Announce New
Executive Council

Executive Director Update

FinTechNZ was established to provide a collaborative sector voice, create connections, increase knowledge, support international growth, and influence policy for the betterment of all Kiwis.

A watershed year. This year has been like no other influenced by generally positive shifts in government /regulatory landscape, more industry activation than ever before and a raft of new initiatives from FinTechNZ to support our Mahi.

Being Bold. Now is the time to keep the foot on the accelerator and push through some core strategic initiatives for the sector.

Jason Roberts, FinTechNZ Executive Director

Creating Collective Impact

The NZTech Group is a collection of purpose driven, not-for-profit, non-government associations that are funded by members that care about the impact of technology on New Zealand.

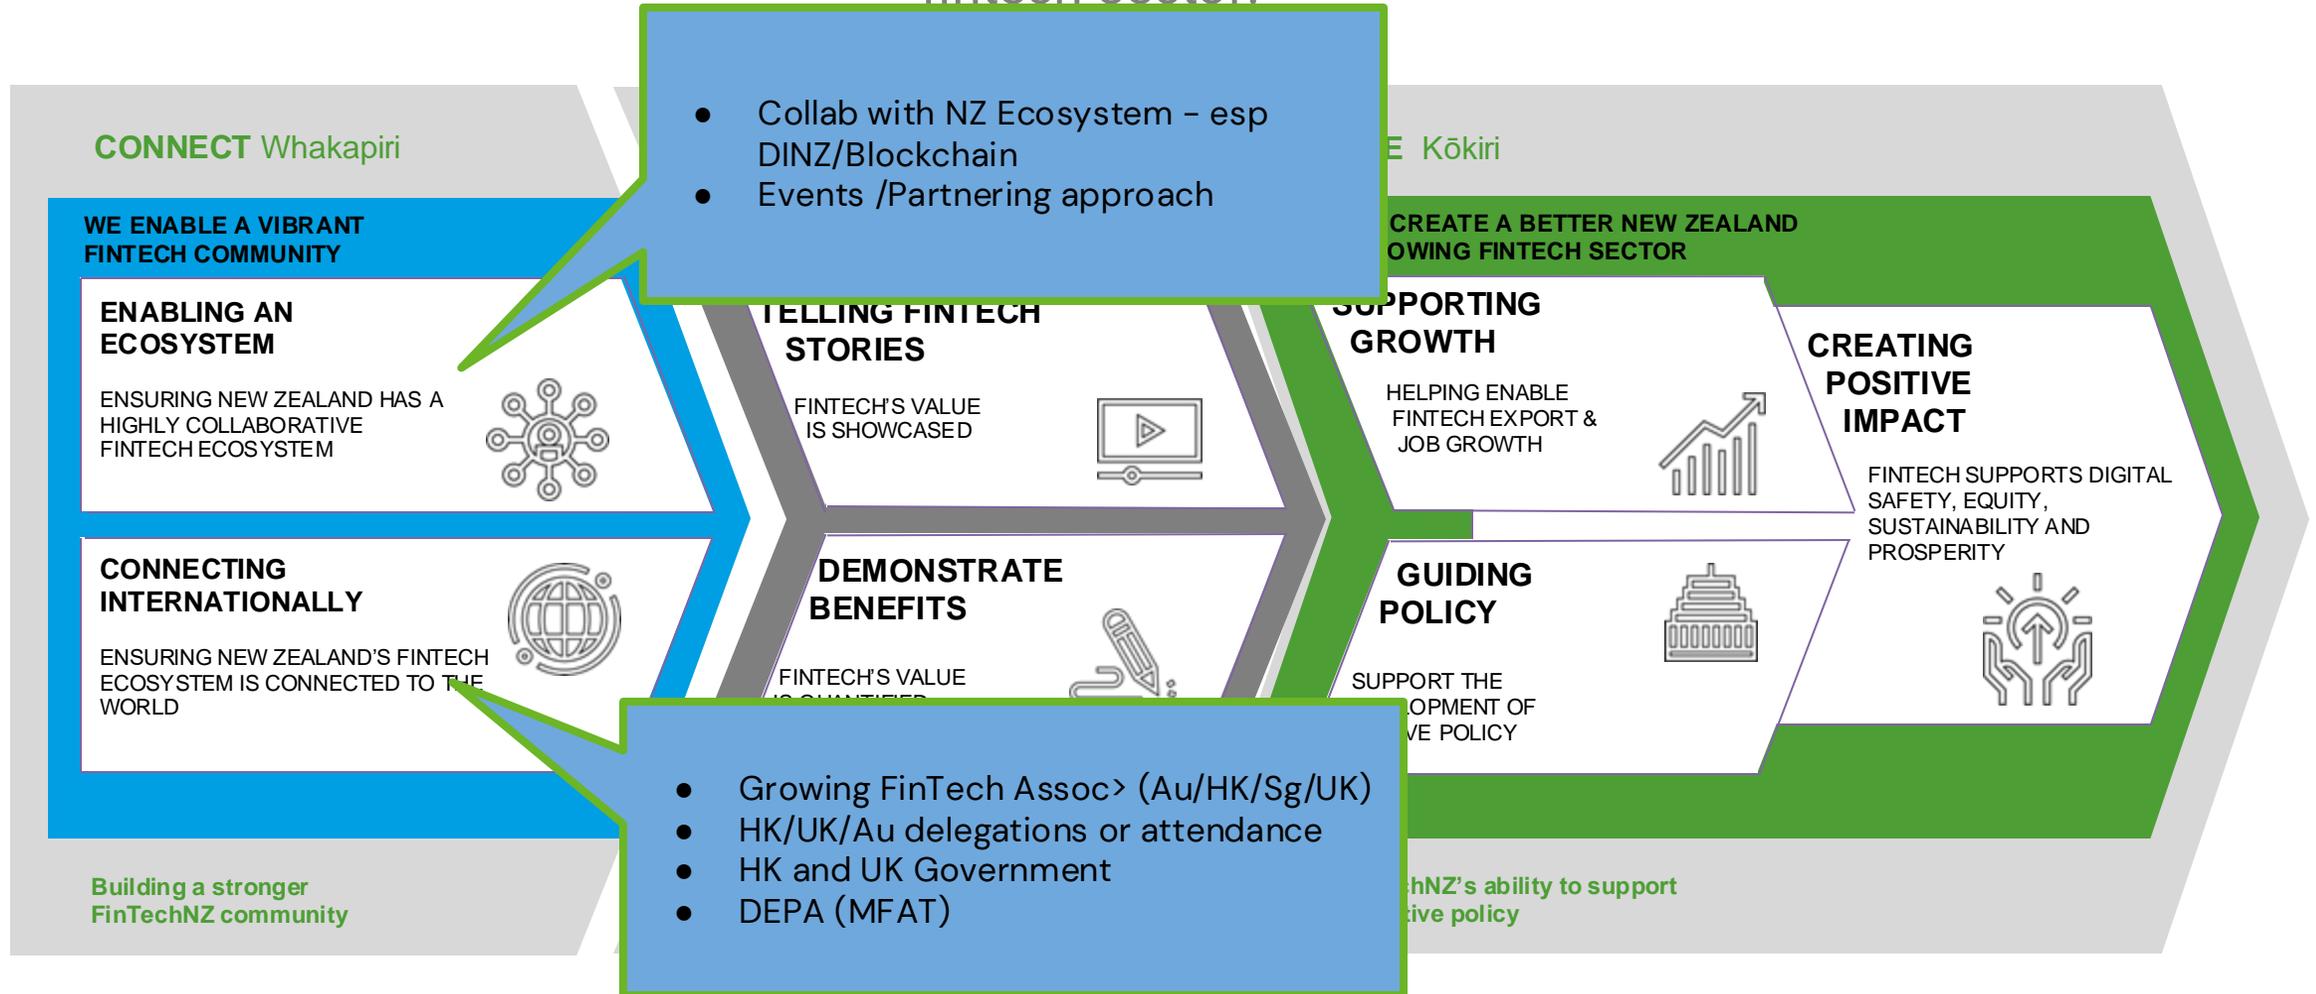

Partnerships and Collaboration are important for overall value

Strategic plan for the year 24/25 year – how are we tracking?

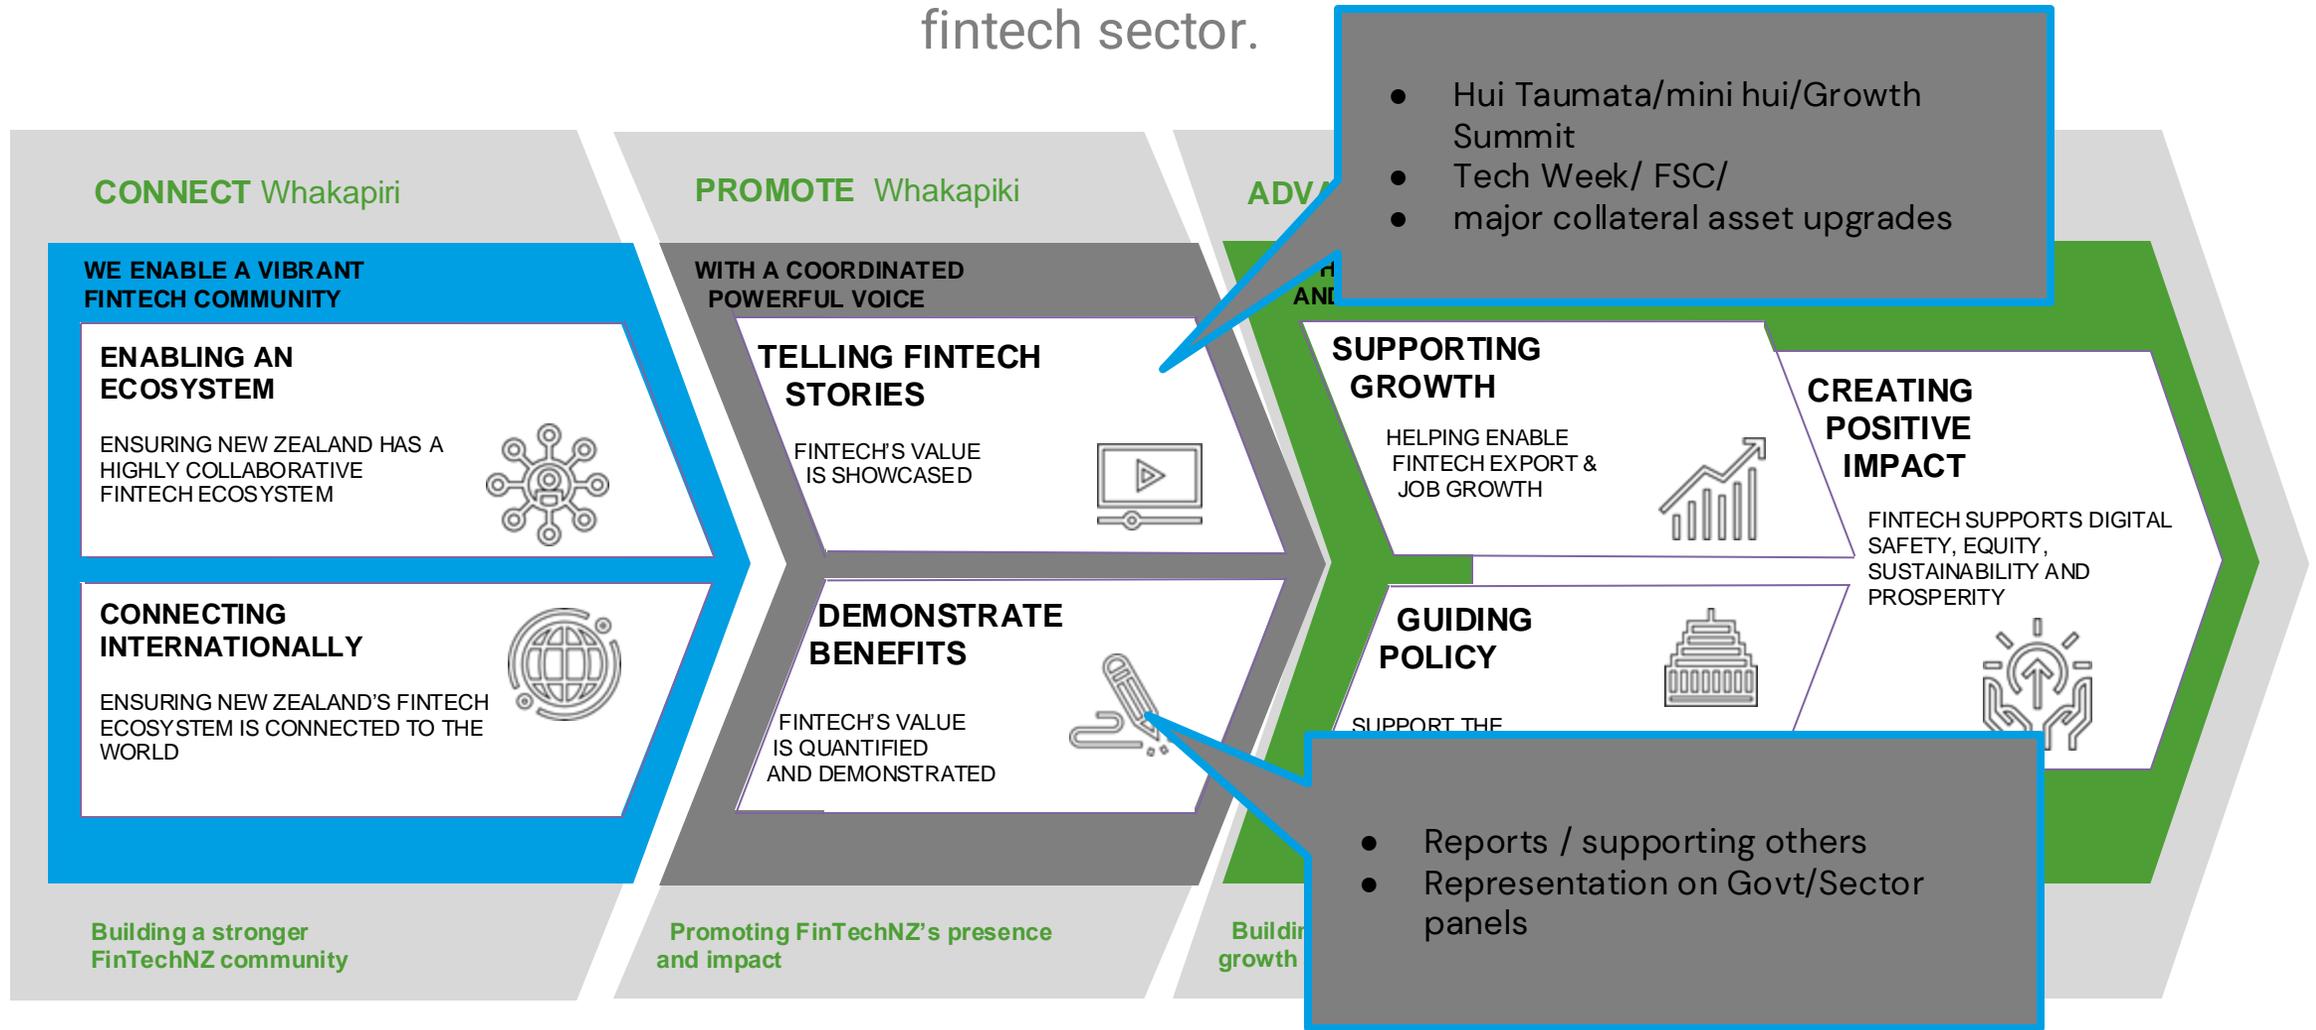

FinTechNZ's strategic objective is to create a vibrant fintech community with a powerful coordinated voice that is helping create a better Aotearoa New Zealand and a growing fintech sector.
